

## News Release

Tustin, CA --- February 20, 2007

## Syagen Hires new Director of Sales and Marketing

### The Company is ramping up explosives detection products

Syagen Technology, Inc., an analytical instrumentation company focused in Homeland Security markets has hired Chris J. McBee as Director of Sales and Marketing. Mr. McBee is a veteran in the security industry with nearly 20 years of experience in technical sales, marketing, and business development, including the security detection, medical imaging and process control instrumentation markets. Over his career, he has managed over 20 new product introductions and developed promotional strategies and distribution networks for these product launches. Prior to joining Syagen, he was the Director of International Security Sales at Thermo Fisher Scientific, selling instruments for explosive trace and radiation detection applications.

Dr. Jack Syage, CEO of Syagen says, "Chris McBee has exceptional talent and energy and we believe will be the key to driving us to the next level in our business. The combination of his business acumen and extensive experience and contacts combined with our performance leading mass-spectrometry based screening systems will give us unmatched capabilities in competing in the market place. We are very excited about our future."

Chris McBee says " It is exciting to be part of the Syagen organization and I am particularly excited about the Guardian® explosives detection portal and the deep pipeline of advanced technologies and products. Syagen is clearly a technology leader that is on the cusp of being a market and strategic leader in the security industry"

### About Syagen

Syagen Technology, Inc. is an analytical instrumentation company developing mass spectrometry products and technology for high-speed molecular analysis and is solving critical needs in homeland security. Syagen is also the leader in photoionization and its PhotoMate® line of APPI sources are sold to leading OEM customers such as Agilent, Thermo Electron, Waters, and Shimadzu. More information about the company is available at [www.syagen.com](http://www.syagen.com).
